

# Ezekiel 37:1-10

*'Thirdly, the word and the spirit will come together as it did in the book of Acts. There is a growing conviction that a remarriage between the word and the spirit is God's way. I say this because those truly open to the person and work of the Holy Spirit in the operation of spiritual gifts are now in the majority among evangelicals in the UK. Sadly for me, this is not the case in the United States.'*

*We will not win people over by theological argument alone*

*By word I mean the centrality of the gospel. By spirit I mean signs, wonders and miracles. I believe that it will mean a spontaneous combustion of power and authority for the Church and a wake-up call to the nation. Never forget that John Newton, famous for his hymn 'Amazing Grace', was the impetus behind William Wilberforce, who brought incalculable social change to the world. While we wait for this nation-changing awakening, we may thank God for encouraging signs now.'*
